OPTIONAL FORM NO. 10
JULY 1973 EDITION
GSA FPMR (41 CFR) 101-11.6

UNITED STATES GOVERNMENT

Memorandum

Ops Ctr

TO : Alert Team Members

DATE: 23 Jun 1975

FROM : DIMSG II

SUBJECT: Reorganization of DI

1. Effective 1 July 1975, the Directorate for Intelligence will be reorganized as indicated in enclosure 1. No impact of this reorganization on the Alert Teams will occur for approximately ninety days. Under the reorganization Alert Teams will consist of the ADI(N), Team Chief, NMCC Representative and three NCOs. The current desk officers will be reassigned to geographical branches within the Analytical Support Division (enclosure 2). However, until that division "gets on its feet", desk officers will continue to work within present team structure. Eventually, the branches within the Analytical Support Division will absorb the desk officers and desk officer positions will be manned by the branches through rotation of branch personnel, both military and civilian.

2. Since desk officers are reassigned to the Analytical Support Division effective 1 July, Team Chiefs must prepare efficiency reports closed out on 30 June. The ninety day period during which desk officers will continue to work on present teams will be covered by a letter of evaluation submitted to the individual's new supervisor.

3. Finally, routing of message traffic will be affected. New distribution stamps and mail room box signs are being prepared. Routing of traffic should be keyed to the guide of old/new branch/division names at enclosure 3. Organization wire diagrams for the Deputate for Management and Development and the Deputate for Defense Intelligence Research Center are at enclosure 4 and 5.
